Parade of the New York Fire Department.

The Tri-ennial parade of the New York Fire Department, took place in that city, on Monday Oct. 14th. and was one of the most magnificent spectacles ever winessed in that place It was witnessed by at least three hundred thousand persons; and there were in the procession six thousand two hundred and thirty seven firemen. There was nothing gorgeous in the procession, no attempt at immense superficial or dramatic display, but everything was very neat and tasteful—the apparatus looked bright and clean, and in many instances their beauty was unadorned. The day was remarkably fine, the streets were thronged with ladies, and the windows full of them, waving their handkerchiefs, and bestowing their brightest smiles upon the red-shirted chivalry as they passed beneatb. The procession itself was extremely quiet, well ordered, and respectable; and, we were glad to see, says the *New York Mercury* that the hints we threw out about cigar-smoking, was accepted. We saw the procession in two different places, and did not observe a single smoker in the ranks The bands were very numerous, and acquitted themselves in a highly creditable manner, performing various airs from "Trovatore," and other operas, in first rate style.

Upon all of the principal hotels and places of amusement, flags were displayed, and, altogether, New York seemed to be alive.

We noticed one building on Broadway, nearly opposite the Carlton House, where there are several sewing-machine estalishments, the fair *attachees* of which, not content with filling the windows full of smiling faces, got outside, and stood behind an immense sign, extending across the whole width of the building, resting on a cornice. The vivified appearance of this front attracted much observation and remark, and many of the companies in procession, removed their hats and cheered in passing.

In the neighborhood of the location, of Engine and Hose Co., 6, all the flags apparently that could be found were waving to and fro. In front of Engine Co., No. 6, an arch some twenty feet high, handsomely decorated, was raised, under which the whole line passed; while the tolling of a bell within the building added a sort of cheerfulness to the brilliancies without. The streets through which the procession passed was literally thronged from beginning to end. Some three hundred thousand people must have witnessed the event, while some six thousand participated in it. Along the line at times, the streets were barely passable. From Essex market on Grand street was suspended a handsome banner bearing the following, "Manhattan Engine Co., No. 8." From Knickerbocker Hall, the following, "Valley Forge Hose Co, No. 41. Welcome Americus No. 8, of Newark." From a building in Eighth avenue, the following, "New York's noblest sons—the firemen." In Bleecker street, at the residence of A. V. Carman, Esq.; the balconies were filled with ladies, who kept up an incessant waving of handkerchiefs. In front of Niblo's, the following inscription appeared; "The bone and muscle of our country." From the rooms of the "Forrest Light Guard," the following, "Edwin Forrest—New York firemen, two names that were ne'er born to die." The building No. 600 Broadway hud the motto—"Our firemen, and their guests" and beneath, the sentiment—"May all fires be quenched, save those of the mind, the heart, and the Fire Department." A flag projected from each of the end windows, and with the beauty of the ladies who filled the rooms, gave an air of festivity to the building. When Hose company No. 61 passed, a magnificent bouquet was presented to the foreman, by a gentleman in behalf of the lady visitors at the rooms.

Mr. Wm. Castigin, the veteran exempt fireman, appeared in the procession, seated in his light wagon with his neat little banner, and a splendid wreath that had been presented to him by Captain E. Vincent

At the appointed hour nearly every company was arranged in their proper order, and at twelve o'clock the line began to move. A cheerful smile seemed to play upon the countenance of every individual who composed the procession. It proceeded in the following order, after counter marching to line of march, through Grand street to Bowery, up the Bowery to 2d avenue, through 3d avenue to 53d street, up 23d street to 8th avenue, down 8th avenue to Bleecker street, through Bleecker street to Broadway, and down Broadway to the Park, and out of the Eastern gate, after being reviewed by his honor the Mayor and members of both Boards of the Common Council in the following order:

They had with them the celebrated British Engine called "Blackfriar," which was captured during the last war with England, at a place called Little York (now Toronto,) by Robert H. Nichols on the 13th, of Oct. It was the greatest curiosity in the whole procession; and, although in appearance and beauty and make far behind the splendid machines we have noticed, it was the more valuable from its historical associations, and the fact of its being one of the trophies of the war of 1812. It is we understand, kept by the United States government in the Navy Yard, and was taken from the engine house for this occasion only At the head of that portion of the exempt firemen, by whom it was drawn, was Mayor Hall of Brooklyn, Mr Nichols by whom the engine was captured, participated in the procession. The engine was appropriately inscribed

After the exempt firemen of Brooklyn came the Exept Fireman's Association of New York, wearing badges, and citizens dress, preceded by their officers.

At their head the exempts carried a silk banner, inscribed "Exempt Firemen of New York," and appropriately designed.

Thus closed one of the most imposing parades of the New York Fire Department. It was decidedly the most satisfactory undertaking in which the department ever took a part—the unanimity of feeling and the harmonious manner in which every member interested himself, entitles the whole department (to a man) to our warmest applause.

The covered button took the place in almost every instance of the former "penny a dozen," agates. The shirts as general thing, seemed new and a correspondence in every company was well carried out. The chief and assistants appeared in "new rig," from head to foot.

The evening was passed in the "free discussion" of eatables, hardly a company omitted in having at least a "few crackers and cheese" enjoying it in their own way and liking. Among the most prominent festivities of the evening were those of Col. umbian engine Co., 14 Hose Co. 46 and Hook and Ladder Co. 3.

Board of Delegates.

An adjourned Stated meeting of the Board of Delegates, was held at their Chambers in the City Hall, on Tuesday evening, Nov. 18th, at 7½ o'clock.

Herr Standige, the celebrated singer and instructor of Jenny Lind, recently died at Vienna, in a mad-house.

Forrest is creating an immense sensation at the Walnut Street theatre.

A five-act comedy, entitled "Fascination," has just been completed by "Dick Tinto," a son of "Peter Parley."

Maretzek, says the Boston *Dispatch*, has not leased the Academy of Music, as we stated in our last issue. At his benefit, on Tuesday night, he made a speech and told his audience that the reason Italian opera failed in New York, was on account of the utterly wrong and pernicious principle upon which it has been conducted—because "in every opera house which has been built in that city the privilege of a limited and exclusive body of men have been guaranteed."

J. B. Roberts commenced an engagement at Pittsburg, on Monday, Oct. 13th.

John G. Cartlitch was to assume the management of the St. Louis Theatre on the 3d Nov.

J. W. Wallack is playing at Rochester.

It is stated that the New York Academy of Music has resolved to erect a magnificent college in that city, at an expense of $80,000 or $60,000.

The Pyne & Harrison troupe have taken the Howard Atheneum, Boston, for a short season, and commence a series of favbrable English operas on Monday, Oct. 20th. The opening was "The Child of the Regiment."

Mr. E. Booth, appeared as Hamlet at the Front street theatre, Baltimore.

The London *Times* says, English dramatists of the present day are nothing better than sycophantic copyists of French filth.

Sir Wm. Don is, on dit, to be brought out a Drury Lane by Hall Wilton.

Maggie Mitchell is at Columbus.

Eliza Logan is at Troy.

It is said that Joe Cowell will return to this country and settle in Cincinnati. He found everything changed in England during his long absence, and thought it wouldn't pay to stay there.

Maretzek announces eight operatic performances at the Boston theatre, commencing on Monday, 20, Oct. The opera will be given three times a week.

Rachel has returned to Paris, but, says the correspondent of the *Courier des Etats Unis*, after a consultation of physicians, it was decided that she should pass the winter in Egypt. She will live at Cairo during the unhealthy season.

Miss Mary Shaw, sisters of Mrs. Hoey and Mrs. Chas. Howard, is now one of the popularities at the St. Louis theatre.

Mr. and Mrs. George Vanderhoff are shortly to return to England, where they have been absent a twelvemonth. It is stated to be Mr. Vanderhoff's intention to take up his residence in Boston, and to devote himself principally to public lectures and readings.

CHASE & BORUCK,
Proprietors Fireman's Journal.
Nov. 22d 1856

It is a fact well known throughout the Fire Department, that on Sunday morning last, large posters were placed in conspicuous portions of the city; on which was printed an extract from this paper, relative to an agreement, made one year ago by certain parties, in regard to the election of Chief, for the ensuing year.

At whose instance the extract in question was placarded, we know not, but, whoever the person or persons were, we are of the opinion—if Firemen—they are a burning disgrace and shame to the organization; if outside the Department, they should be severely dealt with, for attempting to bring discord into the association. We contend and rightly too, that there are but ten hundred and twenty-six men, interested in the matter alluded to, and outside of them no one else has a right to interfere. The community at large have no care whether John Doe or Richard Roe, is elected Chief, if they have, let them come up to the polls on election day and vote with the Department. There is too much of this appealing to the "Public," on matters clearly the property of the Firemen themselves. and over which no other party has any control; and in connection with which if an interference was attempted; would be bitterly opposed.

The Department has always boasted of its ability to govern itself. and manage its internal affairs, and yet at the first blush, we find some wiseacre of the fraternity, with pastepot and brush in hand, posting the petty differences of his fellow members to the gaping public, who have not the slighest interest at heart in the matter. The excuse that was given by an interested party that the "posting' spoken of, was required, for the reason that *all* the firemen did not read the FIREMAN'S JOURNAL, is a weak intention. Those who subscribe read it, and those who don't, steal the information contained in its columns through the medium of others subscription.

The blame of exposing the affairs of the Fire Department, in so disreputable and unnecessary a manner as we have set forth, rests upon Franklin E. R. Whitney, James E. Nuttman and John Short, candidates for the Chief Engineership, and let them each, for the sake of their own reputation, for the honor of the position to which they aspire, and for the wellfare of the Department, trace the affair to the guilty parties, and let them be exposed, whether friends or foes.

Mr. Nuttman is the party posted, but we mention his name, for the reason, that we have heard a rumor, that his friends were connected with the act. Let all the circumstances be investigated; and if it be found that either the friends of Mr. Whitney or Mr. Short posted Mr Nuttman; the firemen have the remedy for such dishonorable conduct in their hands, *as* also against him if he be interested in the same manner.

The interest manifested by the leading citizens of San Francisco in the welfare of the Fire Deparatment, as evinced by the meetings which have lately been held for the purpose of procuring a proper supply of hose for use, in their endeavors to protect the city, amply repays us, for all that we have written and performed in regard to the matter. For some time pas', we have in a series of articles touching the inconsistencies of the Consolidation Bill, portrayed in as vivid a manner as we were capable, the hardships which the firemen have suffered under it, and the entire want of those appliances which are absolutely necessary, to carry out the purposes for which they were organized. Our appeals have not been in vain. The alacrity which has been shown to meet the wishes of the Department is sufficient that they were appreciated. and the sincerity of their motives rightly construed. From the disposition of the gentlemen having the matter in charge, the firemen may rest assured—that great indispensible for a successful combat with the flames—new hose—will soon be in their possession; and the mere fact of their being so provided, will be a sufficient recompense for all our endeavors in the premises.

THE BELFRY.—Will Captain M. R. Roberts, an old experienced fireman—chairman of the Fire and Water committee of the Board of Supervisors, please escort his fellow members of the committee to the roof of the City Hall and there inspect the belfry and bell placed therein; and endeavor from personal observation and examination to have the defects remedied, before the setting in of the rainy season?

Meeting of Engineers. Foremen and Citizens.

An adjourned meeting of the Engineers and Foremen of the Fire Department, was held in the chambers of the Board of Delegates, on Saturday last at 3½ o'clock, for devising ways and means to purchase hose for the protection of the city.

There were present, Chief Engineer James E. Nuttman, 3d Ass't Engineer, Devoe, Foremen Scannel, of No 1, Cole, of No 2, O'Brien, of No 4, Vreeland, of No 5, Lane, of No 7, Hanna, of No 12, and Hayes, of No 13.

Among the citizens invited to co operate with the officers of the Fire Department, there were present, Messrs. G. W P. Bissell, Jonathan Hunt, W. C, Hoff, John Sime, Frederick, Billings, A. B. Forbes and Theodore Payne.

Chief Engineer Nuttman called the meeting to order, and on motion G. W. P Bissell, Esq., was appointed Chairman, and J. Whalen, Chief Engineer's Clerk, Secretary.

The object of the meeting having been clearly stated by the Chief. Mr. John Sime moved that a committee of five be appointed by the Chair to obtain subscriptions to the amount necessary, and report at the next meeting.

The motion of Mr. Sime was adopted, and Chair appointed as such committee, Frederick Billings, John Sime, A. B. Forbes and Abel Guy.

On motion Mr. Bissell was appointed Chairman of the committee, and Chief Engineer Nuttman was added

The meeting then adjourned until Monday afternoon at 3½ o'clock.

MONDAY, NOV. 17, 1856.

In accordance with adjournment the committee met at 3½ o'clock.

Present, Chief Engineer Nuttman, Foremen Cole of No 2, O'Brien of No 4, Vreeland of No 5, Lane of No 7, Herbert of No 10, Brennan of No 11 and Hayes of No 13. Of the citizens who had been invited to co operate with the officers of the Fire Department, we noticed present, Messrs. G W P Bissell, Theodore Payne, John Sime, A B Forbes, Samuel Brannan and Mr Bell, of Faulkner, Bell & Co

Mr Bissell presided over the meeting, and Mr Marcus D Boruck acted as Secretary,

Mr. Bissel reported that the committee appointed at the previous meeting had held an interview with the Insurance Agents, and had obtained a list of subscriptions from them amounting to $2,500. Mr Bissell stated that the amount necessary for the purchase of the hose was $13,500, towards which $3,200 had been collected, leaving about $10,000 to be provided The object of the meeting was to provide means for raising that sum Mr. B. doubted not for an instant the necessity of furnishing hose to the Fire Department, and that too, without any delay; therefore, immediate action should be taken in the matter.

Mr Boruck, for the information of the committee, then read the letter from Mrs Hayne, tendering the Fire Department a benefit for the purchase of hose, to take place upon her return from the interior

Mr. Bissell stated that the committee, in the course of their deliberations, had thought it best for the Board of Foremen to divide the city into districts, and designate men, in whom full confidence might be placed, to canvass the same for subscriptions.

Mr. Sime thought that as but few citizens had been notified of the meeting, and but few were present, another meeting should be called, at which time a practical method might be adopted to perfect a complete canvass of the city for subscriptions. Mr. Sime was of the opinion that parties owning wooden buildings in the upper part of the city should be called upon for aid, as well as the mercantile portion of the community, occupying more substantial buildings in the lower part of the city, as the liability of danger from fire is even greater with the first than with the last.

Mr Billings was of the opinion that a meeting of the Fire Deparment should be called and two members of the same be selected from each District — Two citizens should also be selected to accompany the firemen, and, if possible, the four should obtain the services of the Supervisor of the District to assist them in the canvass.

Mr. Forbes in seconding the motion of Mr. Sime, to call another meeting, stated that great care should be exercised in selecting the District committee, to obtain men in whom the people have full confidence. Mr. F. wished to see forty or fifty citizens present at the next meeting, and then proper committees might be appointed. Mr. F. also wished the Secretary of the Fire Department would request the attendance of as many citizens and Insurance Agents as possible at the next meeting.

Mr Sime moved that the districting of the city be left with Chief Engineer Nuttman, and the Foremen of the Fire Department, who shall also select two firemen for each District, and report their names at the next meeting. Carried

On motion the meeting adjourned until Friday next at 3½ o'clock P. M.

FRIDAY, NOV. 21, 1856.

The committee met pursuant to adjournment G. W. P. Bissell in the Chair.

There were present Chief Engin'r Nuttman, Foremen, Scannell, Cole, Lane, Herbert, Hanna and Hayes. Of citizens, there were present, John Simes A B Forbes, A Guy, E P Flint, T Young, M S Martin, J Smith, J Shannon, W B Little, L Cohn, F Franck, F Touchard, T Payne, Mr. Bell, J H Cutter, W K Van Allen, Joseph Austin and others — Of the Press, P P Hull, John Cremony, C J Bartlett, F F Fargo, J P Curry, F Derbec and Julius Korn.

The minutes of the previous meetings were read and approved.

The following Preamble and Resolutions were, then read:

PREAMBLE AND RESOLUTIONS,

The undersigned a committee of the Engineers and Foremen of the Engine Co's of the Fire Department, in accordance with a resolution passed at a meeting of Citizens and Foremen, held on Monday, 17th inst., for the pupose of devising means for the purchase of Hose, respectfully report as follows, viz:

That in offering our gratuitous services—in the discharge of the duties of Firemen, we deem our privilege to demand at the hands of the public—whose interests we serve—the necessary apparatus for the performance of those duties

That in our appeal to the citizens, we have simply set forth our necessary wants, and the immediate danger to which the owners of property are liable.

That we believe it now properly the duty of the citizens, who have property at stake to circulate the proposed subscription than of the Fire Department, especially as the Department has already been brought into disrepute by the frequency with which petitions have been circulated in its name.

That in view of the above, we respectfully leave the matter of the circulation of the proposed subscription, entirely to the committee of citizens soliciting their prompt action, and guaranteeing under any circumstances our faithful exertions in behalf of the interests, with such means as the Department has at their command.

Signed by the Chief Engineer and Foremen,

Mr. Forbes offered a resolution which was adopted, that a committee of five be appointed to canvass the Districts of the city, and secure for the collecting committee reliable men. The Chair appointed as the committee F. Billings, John Sime, Louis Cohn, Theo. Payne and E. W. Crowell, on motion Mr. Bissell, Mr. Bell, J, F. Haven and W. K. Van Allen, were added to the committee

The committee appointed at the meetingof Saturday was discharged. Mr. Sime offe ed a resolution, which was adopted, that a committee be appointed to draft an address to the public in regard to the matter.

The chair appointed as the committee, Theodore Payne, F. Billings, and C. J. Bartlett, on motion M. D. Boruck was added to the committee.

The meeting then adjourned to assemble at the call of the President.

Board of Delegates.

The Board of Delegates met last evening, in accordance with previous adjournment; John Short, President *pro tem*, in the chair. Upon the calling of the roll, every member answered to his name. The minutes of the preceding meeting were read and corrected to read, that the minutes of the meeting of Nov. 12, "were read and approved." After six in effectual ballots to elect a President, Mr. Sinton and Mr. Jones, receiving 16 votes each; a resolution was adopted, offered by Mr. Gough, declaring Florence Mahony President for the ensuing year. Doubts having been expressed as to the legality of elections of President by resolution, a ballot was had, when on the 23d ballot, Mr. Mahony received 24 votes; Jones 7, Sinton 1, Moore 1. Mr. Mahony having received a majority of the votes cast, was elected President of the Board for the ensuing year, which on motion of Mr. Jones, was made unanimous. Prior to the taking of the last ballot, both Mr. Sinton and Mr. Jones withdrew as candidates.

An election for Secretary of the Board, was then gone into. Messrs Whalen of No, 13, Biden of No. 10, and Ezekiel of St. Francis Hook & Ladder, being placed in nomination. On the 1st. ballot the vote stood:—Ezekiel 15; Whalen 11; Biden 3; Speckles 2. No election.

On the 2d. ballot:—Whalen had 12, Ezekiel, 15 Biden 2, Speckles 2. No eletion.

On the 3d ballot, it stood:—Whalen 13, Ezekiel 14, Biden 2, Speckles 1, Buckley 1. No election. There being no prospect of an election for Secretary, the Board adjourned until Monday evening next, Nov. 24th at 7½ o'clock.

Interesting Letter.

The following beautiful letter from Mrs. Mary P. Benton, the wife of the clergyman of that name. located at the Mission Dolores, was addressed to "Young America," Engine Company No. 13, and handed to us for publication. We give it room in our columns, with more than ordinary pleasure, as much from the fact of its being written by a lady, as for the womanly sentiments contained therein The high compliment passed upon the members of the Fire Department must awaken in their hearts, feelings of great gratification. and furnish them with a still greater desire (if possible,) than they now possess, of rendering their organization a model and an example for others to follow after. Personally, we would most gladly by our example and influence endeavor to bring about that great desideratum, in all organ zations—"Temperance," not only for their own welfare, but for the good order and peace of society generally. We must say however, that we think it is a matter, depending entirely upon "self," and although there have been cases, where intemperance and a violation of all laws human and divine, have prevailed from example; still we are firm in the opinion that but very few converts are made by reason of pledges; or concerted action upon the part of a few The firemen of this city when on duty, and in private life, are proverbial for their temperance and sobriety; and we hazard nothing in saying that an appeal such as that made in the above letter; will meet with more than a passing notice from them.

We are happy to state that the information desired by Mrs Benton, relative to the Fire Department, has been transmitted to her.

TO YOUNG AMERICA ENGINE CO., NO. 13.

GENTLEMEN:—Presuming that most of you like myself, have determined to make California your home, you will sympathise with me in an ardent desire for her prosperity. Immigration is generally conceded to be the thing most needed. A great hindrance to this is the impression abroad that a very low state of morals prevails here. The wife is not willing to part with, or accompany her husband to *such* a place; the mother ca not consent to bring up her little ones amid *such surroundings* Thus thousands with their eyes directed to California still remain in the finished villages or swarming cities of the East. While there is or has been some occasion for these impressions. those who reside here know that justice is not done to the moral character of California. While her crimes are everywhere chronicled, her virtues pass unnoticed.

One of the favorable phases of California is the superiority of everything connected with the Fire Department

During many years residence in New York, I had abundant opportunity to witness and deplore the immorality that seemed to grow out of this association. An engine house was regarded as a nuisance in any respectable neighborhood, and many a time in visiting among the poorer classes have I heard mothers, as they deplored the waywardness of their boys, date the commencement of their downward career, from the time they began to frequent the engine house. Supposing the same state of things to exist here, I confess that the announcement that one was to be erected in our neighborhood, occasioned me deep regret.

The reality was so great and agreeable a disappointment. that I have been led to observations and enquiries into the general character of the Fire Department, and I cannot repress the wish that the facts showing the superiority of California in this respect over all other countries, may be fully known abroad.

Perhaps these things have already been noticed, if so no harm will occur in their re-iteration. Having occasion to write to the East, I shall be greatly obliged if some one of your number will put me in possession of all the interesting facts and statistics of the entire Department in this city. The number of buildings, their cost, the amount expended by the city, do., by the company, number of libraries, amount of books, description of furniture, rules and everything that will conribute to the object above stated.

Will you allow me to express a wish upon another subject? It would greatly delight me to report to our friends at the East, that the firemen had arisen in their united strength to quench a fire that is consuming many a noble intellect, and is reducing to ashes the love-altar of many a happy home The tyranny of custom is plead by many as too powerful to be resisted by one alone If a band of men so brave and so influential as the fireman of this city, would combine against this *spirituous despotism*, they could emancipate this land from the thraldom which *all* deplore but *few* have courage and strength to break. If the generous impulse which now seeks the social glass must find vent, let the bounty which now secures it flow in another channel. The silver and gold now offered at the shrine of Bachus to purchase a moment of cheer with its finale of gloom, would soon erect a Home for the youthful wanderer and stand as a witness and monument in honor of the generosity, self-denial, patriotism and philanthropy of the San Francisco Firemen. Begging pardon for thus intruding myself upon your notice I remain,

Yours admiringly and resp't,
Mrs. Mary P. Benton.

MRS. HAYNE.—This talented actress and estimable lady, has been attracting overflowing houses, at Sacramento, The miners throughout the interior of the State, have expressed a great anxiety that Mrs. Hayne should visit them. We hope she will.

SOIREE.—A very delightful *soiree*, being one of the series given by the 1st Light Dragoons, took place at Assembly Hall, on Thursday evening. It was a very elegant affair, and was participated in by a large and well pleased assemblage of Ladies and gentlemen

ON THE OUTSIDE.—May be found a full accoun of the great parade of the New York Fire Department, on the 14th, of October: together with the proceedings of the Board of Delegates, for Tuesday Evening.

Letter from Philadelphia.

PHILADELPHIA, Oct. 18, 1856.

FRIEND BORUCK: Between the grand Fair of the National Agricutural Society, the general State election, and the visit of two Fire companies from Charlestown, Boston, Mass., which have taken place within the last fortnight, the usually tame and quiet city of Penn. has been kept in a state of excitement, that has astonished the "oldest inhabitant." The ball was set in motion by the National Agricultural exhibition, which was held at Powellton on the west side of the Schuylkill, the grounds were the same as those used by the State Fair two years ago, but much more extended. The Fair opened regularly on the 7th October and closed on the 11th. On the 9th the Butchers made a grand parade, but the display was nothing to brag of and could not compare with former parades of the same Society —they looked well, however, and attracted a great deal of attention.

On the same day that the Butchers paraded, the Washington engine company, of Charlestown, Mass., arrived accompanied by Flagg's celebrated band, they brought their engine a small Hunneman tub, painted red, and made a fine appearance, they wore the regular New York fire dress—red shirt, cap and dark pants; they were received by the Directors of the Fire Department, in citizens dress with badges, the Washington engine whose guests they were—the Marion hose company and Monroe engine company, in uniform. They remained here several days and were very handsomely entertained by the Washington engine, Robert Morris hose, Empire H and L., and other companies They left on Saturday the 11th, for New York, where they intend remaining over Monday, the 13th, to participate in the parade of the Department that comes off on that day.

On Wednesday, the 15th, the Cataract No 4, of Boston, arrived as the guests of the Northern Liberty engine company. They had a borrowed engine with them, the corporation having refused to loan the one in use by them. They were a fine looking body of men, and were handsomely uniformed in New York firecaps, red shirts, drab pants and black leggins. They were met at the wharf and escorted to their quarters, by the following companies, Hand in Hand, Goodwill and United hose companies.—The Hon. Daniel Warren, Hon. B. F. Cook, Colonel Bullock, James Quinn, and Daniel J. Richer. engineers of Boston accompanied the Cataract company as guests, they remained in the city until Saturday evening, and were put through what is classically termed "a course of sprouts," having been shown all the lions, even to the extent of a "big fire" at which the "steam squirt" actually got to work, and worked one hour before breaking down, which it eventually did, leaving the firemen to put out the fire with their hand squirts. The steam engine, however, is not a failure as some people would have it appear, but an excellent auxiliary in extinguishing fires, were it only properly managed, but it has been allowed to remain for months in a damp house without any care being taken of it and the result has been that when its services are required it has been out of repair and unfit for use. I had an opportunity of seeing the Young America as she is called, play some six months ago and must confess her working perfectly astonished me, and surpassed anything I ever witnessed here or elsewhere in the way of a fire engine, but it requires to be carefully managed and will not of course serve every purpose of a hand engine, but to my mind it is just as absurd to set up a horse against a locomotive, as a hand engine against a steam engine—I speak of the Young America—as I have never seen any other and cannot of course judge of what they can do.

The military spirit has taken a fresh start, and the most of companies that have their Fall parades have done so with swelled ranks. In the Artillery regiment there is quite a rivalry between the Cadwalader and Phildelphia Greys, as to which shall parade more men than the Washington Greys of the same regiment, which has quietly borne off the palm of strength for several years. The Cadwadaler Greys paraded some two weeks ago, and numbered 48 muskets, making a fine appearance, and on Thursday last, the 16th inst., the Philadelphia Greys paraded for target practice, numbering 49 muskets, both companies say they will go 60 next time. The National Guards, Capt. Lyle, parade on the 30th in their fatigue uniform, dark blue frock coat, French blue pants, and blue cloth cap, army style. The coat is trimmed with gold lace and make a pretty appearance. The Guards will have out over 100 muskets, and have chartered the steamboat R. Stockton to take them to Bristol The first prize which is to be kept by the winner, is a beautiful silver vase, surmounted by a gold eagle—a present from a member of the company, Mr. A. Morin, by whom it was manufactured. This company has purchased an additional 20 feet to the lot for their new Armory in the course of erection, and the building will be 60 by 130 feet, which will by the size of the Hall on the second story, and the drill room on the third, deducting some 10 feet in the rear for the stair ways, the foundation of the building is rapidly progressing, They anticipate having it under roof by New Year. The project is one of more than ordinary magnitude and I question whether any undertaking of like magnitude has ever been undertaken by a single military company in the world, the cost of the building will not fall much short of $50,000, it will be 83 feet to top of the cornice measuring from the side walk and will be when finished one of the highest buildings In the city.

NEW ADVERTISEMENTS.

SPECIAL NOTICE.

☞ **Dr. L. J. Czapkay.**—The gentleman whose name forms the caption of this notice, is one of the few modern physicians whose application to his profession and devotion to the afflicted, rendering him alike an ornament to the one and a benefactor to the other. A Hungarian by birth, he sought with Kossuth to place his country among the nations of earth, beyond the oppressor's rule, that her sons might rejoice in the practice of those precepts which are alike our glory and our pride. In his efforts so to do, he has reaped the reward of ineffectual resistance to oppression, and "a home and a country know him no more" Apart, however, from his claims upon our consideration as a patriot, the testimonials of character and capacity which he brings, entitle him to public confidence, to the exclusion of those who possess neither the one nor the other. As a gentleman his character is untarnished; as a physician his skill unsurpassed; and to those whose imprudence has left upon them the taints of disease we can conscientiously commend him with the assurance that in him they will find a friend whom to know is great gain. The Dr.'s office is No. 1 and 2, Amory Hall, corner Sacramento and Montgomery sts., San Francisco, Cal.

THE VERY BEST.—Those who desire the finest Ambrotypes and Daguerreotypes that can be taken, should by all means call at the gallery of Vance, at the corner of Montgomery and Sacramento streets. We have have examined the pictures in many galleries in this and other cities, and must confess we have never seen any that came nearer perfection than those taken by Vance. Some of the portraits are life size, others of minature size for breast pins and lockets, but all so beautifully clear and true to nature that there is no mistaking for whom they were intended The process of Mr. Vance, is peculiar to himself. and the pictures are so indelibly stamped that they will last forever. Neither acid or water affecting them. We advise all to call and examine the gallery, being assured they will be highly ratified with their visit. c18-1m

Distinguished Visitors.

During the past week, Mr. Samuel H. Baldwin, and Henry Hodgkins, of Stockton; (prominent members of the Fire Department of that place,) have been sojourning in our city. The first named, prior to his departure for Oregon, and the latter, for the Atlantic States. Both of the gentlemen named, are intimately acquainted with many of the firemen of this city, and their whole souled liberality and kind attention extended so many and often time won for them their heartfelt love and esteem and we know of none outside our own department, whose absence will be so sicerely regretted as the gentlemen spoken of.

From the *San Joaquin Republican*, which has been kindly sent by the "original," of the "Pandolphins," we glean the following in connection with the departure of Messrs. Baldwin and Hodgkins from Stockton;

Our goodly city was thrown into considerable confusion yesterday, by the announcement in the morning, of the intended departure of two of our oldest citizens, Mr. Henry Hodgkins and Samuel H. Baldwin. Champaigne and various 'side" drinks, was the order of the day. Henry Hodgkins being a member of Eureka No. 1, their hall was thrown open for the reception of his friends. We are assured, though we were not present, that the affair passed off very pleasantly. A large handsome California gold ring was presented to Mr. Hodgkins by his friends, through J. M. Vansycle who happened to be present. The affair, though gotton up on the spur of the moment, went off remarkably well. Mr. Hodgkins responded to Mr. Vansycle in a short, but well timed speech.

At 2 o'clock in the afternoon, the Shades Saloon was crowded with the friends of Mr. Baldwin. A large gold watch and chain was presented to Mr. Baldwin, on behalf of his friends, by J. M Vansyckle, who spoke in substance as follows:

"Friend Baldwin:—It is with feelings of regret, that I learn you are about to leave us From the fact of your intended departure, I have been chosen by a number of your friends to present you with this watch as a slight memento of their esteem and regard—take it and wear it, and may you ever, as you listen to its "ticking," be reminded of the pulsations of friendship, that is vibrating for you by those you leave behind. It is not the intrinsic value of the present, that we wish you to remember, but the rich donation from the hearts of you fellow citizens—a dear and unostentatious manifestation of their esteem and regard. It matters not under what circumstances a man may be placed —how far soever he may be from his home and friends—if he bears about him such a manifestation of absent friends—from those where he has lived so long—and been so favorably known, he will be respected. Then to you this will be the highest letter of recommendation, we, as your friends can offer; we hope it may not only answer our purpose—which is that of your advancement and a continuation of our regards—but may it be a passport to your highest aims. As fellow firemen, we feel a double loss, a manifestation of which you can plainly see by the number of your brother firemen here assembled to bid you adieu. While you traverse that cold region of the north, which is to be your future home, it will be a satisfaction for you to know, that in the city of Stockton, there is many a heart that beats in unison with your own, and keeps time with the friendship's offering I have just handed you.

Mr. Baldwin replied in a very neat and appropriate manner; and though his remarks were brief, they gave evidence of the feeling which pervaded his breast. He referred to the many social hours which he had spent among his friends in Stockton. He saw many present whom he should ever remember; and that they and the little Peninsula city should ever occupy a prominent place in his affections. He said that he had not words at his command to fully reflect his feelings, but he hoped the assurance on his part of his sincere gratitude would be appreciated without a display of words.

He then took the watch, while three hearty cheers were given for Sam, accompanied with a unanimous wish for his future happiness.

MEDICAL.

DR. CZAPKAY'S MEDICAL CARDS

Dr. L. J. CZAPKY'S

Grand Medical and Surgical Institute,

Armory Hall Building, Corner of Montgomery and Sacramento streets, San Francisco.

Established for the permanent cure of all private and chronic diseases and the suppression of quackery.

DR L. J. CZAPKAY late in the Hungarian Revolutionary War, Chief Physician to the 20th regiment of Honveds, Chief Surgeon to the military hospital at Pesth, Hungary, and lecturer on diseases of urinary organs and diseases of women and children, has opened his institute for the cure of all forms of private diseases, such as syphilis gonorehea, nocturnal emissions and all the consequences of self abuse. In the first stages of syphilitic or gonorhoeal diseases, he guarantees a cure in a few days without inconvenience to the patient to his business. When a patient by neglect or improper treatment, has developed the symtoms of secondary syphilis, such as buboes or painful swellings of the groins, or ulcers of the throat or nose which if not checked, destroy the soft parts and cause the bones to mortify, seperate and come away, leaving the unfortenate hideous to behold; or when splotches or pimples break out upon the skin, or when he has painful swellings upon the bones, or when his constitution is injured so as to predispose to consumption or constitutional disease, the Doctor guarantees a cure or asks no compensation.

In rheumatism chronic or acute, in dysentery or diarrhoea he has safe and effectual remedies. For the treatment of the consequences of self-abuse such as nocturnal emissions, nervousness, limidity, headache, pains in the back and limbs, with general weakness loss of appetite loss of memory, injury to the sight, restlessness, confusion of ideas, dislike for society and a feeling of weariness of life, with the nervous system so excitable that slight noise shock or startle the patient, making his existence miserable. For the above maladies the Doctor will guarantee a cure or ask no compensation. He can be consulted free of charge, and invites all to call, as it will cost them nothing, and may be much to their advantage. oct 24

A Tribute of Merited Worth.

THE ingratitude of man to his fellow man is so often met in life that testimonials prompted by the finer feelings of the heart, are rare in the life of those who sacrifice their best days in philanthropic devotion to the alleviation of the ills of frail mortality. Empiricism and quackeries columns of our press with fraudulent and fictitious letters, singing paeans to the worth of their egotistical charlatanism. Below we append a letter from a worthy man, who a brief period since seemed destined to "shuffle off this mortal coil" who looked forward to his dissolution with that pleasure which only those weighed down by the heavy hand of disease can. Contrary to hope, the ability of a skillful physician has restored him to his former health. Relieved from his terrible situation, and impelled by gratitude, he makes known his case and remedial agent, and his statement is authenticated by a notary public. The demands of society imperiously command its publicity and that given may to warn the unwary than to sound the praises of a physician of whom scores of like cases can be cited.

CERTIFICATE.

The undersigned, desirous of acquainting those who may be unfortunate enough to be similarly afflicted where a permanent relief to their sufferings may be obtained, feels it his duty to thus publicly express his sincere gratitude to Dr. L. J. Czadkay for the permanent recovery of his health Borne down by the distressing symptoms incident to the vicious practices of uncontrollable passions of youth, depressed in body and mind, unable to perform even the most trifling duty imposed upon the daily avocations of life. I sought the advice of many physicians, who at first regarded my disease as of trifling importance; but, alas, after a few weeks, and in several instances months, of their treatment I found, to my unutterable horror, that instead of relief the symptoms became more alarming in their torture, and being finally told by one that the nervous being principally confined to the brain, medicines would be of little consequence. I despaired of ever regaining my wonted strength and energy; and as a last resort, and with but a faint hope, called upon Dr Czapky who, after examining my case, prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by this, I resolved to place myself immediately under his care, and by a strict obedience to his directions and advice, my head became entirely free, collected, the constant pain in the back and groins the weakness of my limbs, the nervous dejection of my whole system on the slightest alarm or excitement, the misanthropy and evil forebodings the self distrust, and want of confidence in others, incapability to study and want of resolution, the trifling and at times pleasurable dreams at night, followed by involuntary discharges, have all disappeared, and, in fact, in two months after having consulted the Doctor, I felt as if inspired by a new life—that life which but a short time ago I contemplated to end by my own hand.

With a view to guard the unfortunate from falling into the snares of incompetent quacks, I deem it my duty to offer this testimony to the merit and skill of Dr Czapkay, and free unreserved him to all who may stand in need of medical advice being assured by my own experience that, no one under his care, a radical and permanent cure will be effected. B F FILLMORE.

State of California, county of San Francisco.—Subscribed and sworn before me this 17th day of April A D. 1856.

Spermatorrhœa.

OR local weakness, nervous debility, low spirits lassitude, weakness of the limbs and back, indisposition and incapability for labor and study, dullness of apprehension, loss of memory, aversion to society, love of solitude, timidity, self distrust, dizziness, headache, involuntary discharges, pains in the side affections of the eyes, pimples on the face, sexual and other infirmities in man, are cured without fail by the justly celebrated physician and surgeon, L J. Czapkay. His method of curing diseases is new (unknown to others,) and hence the great success. All consultations by letter or otherwise free. Address L. J. Czapkay M. D, San Francisco, California.

A CARD.—Prompted by an honest desire of my heart I wish to lay before the public a case which deserves a high commendation, not only as an act of scientific skill but the tot humanity also. About two years ago, I suddenly, and from from causes unknown to me, was seized with a fit of epilepsy, which, owing to my inability to meet the expenses consequent upon a thorough medical treatment, and the discouragement I met with on attempting it, soon became such (and was then led to believe) as to defy the skill of physician. I was frequently, while in pursuit of my calling, thrown down to the ground without the slightest warning, and although insensible to the agonies, I yet despised the miseries of my life, and soon learned to look upon those who would render me assistance or shelter me from danger as enemies who sought to prolong the misery of my existence. While in this state and having previously my affliction tasted the sweets of life, I once more was induced to attempt seeking aid of a physician and, by recommendation, called upon Dr. L. J. CZAPKAY. I told him my circumstances and my inability to reward him for his services, regardless of which however, he at once and took my case, and with the blessing of God I was once more restored to perfect health. Unable to reward him for the boon which I enjoy at present, and yet conscious of my indebtedness, I consider it due to myself and to all afflicted to make the case public, in order that those in need of medical advice may find a physician whom every confidence can be placed

MISCELLANEOUS.

LOOK OUT FOR THEM!

DON'T BE HUMBUGGED!!
INTO PAYING YOUR MONEY FOR Worthless Trash called patent Ambrotypes, which are being palmed off on the public as imperishable. THEY WON'T STAND SIX MONTHS.

In the so called Patent Ambrotypes the pictures are sealed with Balsam, which constantly cozes out, and so on leaves the picture covered with blisters, and it is ruined For the truth of this, examine closely specimens, (and the small ones particularly,) in a certain extraordinary fine show case in town, and see for yourselves.

WE tried selling Ambrotypes long ago, and had sometwenty or thirty specimens at the door, but one by one they have become ruined, and now only one remains of the original lot.

By the improved method of putting up Ambrotypes, the cement is entirely done away with, and the picture is covered with an enamel which instantly dries and becomes as hard as the glass itself. This is the improvement, and the pictures are called IMPROVED AMBROTYES throughout the United States, and honest operators make no other. These pictures were first introduced in California by Ford, and he still makes them in unequalled perfection.

Having received by the last steamer a Mammoth sized CAMERA, Mr Ford is prepared to execute LIFE SIZE Ambrotypes and Photographs.

Particular attention is paid to the Photographic Views on paper.

Orders for these will be attended to from any part of the city and surrounding country.

FISK'S PATENT METALLIC BURIAL CASES
And Corpse Preservers,

We have received the right to sale of Fisk's Paten Metallic Burial Cases, and are prepared to furnish them to Undertakers and others at a small advance upon cost price in the Atlantic States. The advantages claimed by the use of Fisk's Metallic Coffins for preserving the dead, over all others now in use, are: First, that they necessarily cost very little over the price charged for coffins made of the ordinary woods, and that the manner of using them is so simple that any person can do so by following the directions which accompany each Case; And, lastly, because they answer the purposes they were originally intended or designed for, viz: the preservation of the human body from decomposition after death, so that it can be forwarded to any part of the world with safety, allowing sufficient time to gratify surviving friends who may be absent, and thereby enabling them to take the last fond look of the dead, without offending the most delicate or sensitive. We have witnessed the preservative properties of these Coffins a number of times in cases where it became necessary to convey the corpse to a distance, and never, in a single instance have we known them to fail in all that has been claimed for them. Being perfectly air-tight, the body once placed in them retains its natural appearance, without disturbing or disfiguring it in the least, and will remain so for a number of years, if proper care is taken so as to prevent the case from getting broke. And we further state that it is only necessary to give them a trial in order to satisfy the most skeptical. A. MASSEY.

DR. GUYSOTT'S
Improved Extract of Yellow Dock & Sarsaparilla

Is acknowledged to be the best Sarsaparilla made; as is certified by the wonderful cures it has performed. Remember, this is the only True and Original Article. This Medicine, when used according to Directions,

Will Cure Without Fail,

Scrofula, or King's Evil, Cancers, Tumors, Eruptions of the Skin, Erysipelas, Chronic Sore Eyes, Ringworm, or Tetter, Scald Head, Rheumatism, Pains in the Bones and Joints, Old Sores, Ulcers, Swelling of the Glands, Syphilis, Dyspepsia, Salt Rheum, Disease of the Kidneys, Loss of Appetite, Disease Arising from the use of Mercury, Pain in the Side and Shoulders, General Debility, JAUNDICE AND COSTIVENESS.

The Best Female Medicine Known.

The Yellow Dock and Sarsaparilla is peculiarly adapted for females of delicate health, resulting from the irregularity of menstrual discharges, and other diseases peculiar to their sex. We assure the afflicted that a bottle or two of DR. GUYSOTT'S EXTRACT OF YELLOW DOCK AND SARSAPARILLA will at once regulate those difficulties and renew the natural energies.

Syphilis, Scrofula and Diseased Blood.

Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla is a true specific. The proprietors have in their possession over one hundred certificates of the most extraordinary cures effected by it. We can safely say, BY IT. It revives the drooping constitution, eradicates all bad humors from the blood, and by its tonic properties restores the invalid to health and vigor. As a spring and summer medicine, it has no equal. Its singularly efficacious action on the blood, its strengthening and vivifying action on the system, stand pre-eminent above all other Sarsaparillas. If you would have the rose brought back to your cheek, a clear, healthy and transparent skin, and life and health infused through the system, take Guysott's Extract of Yellow Dock and Sarsaparilla. It contains more of the pure Honduras Sarsaparilla than any other preparation extant, which is chemically combined with the Extract of Yellow Dock and the Extract of Wild Cherry, thus making the remedy more efficient than any other Sarsaparilla before the public. At the same time it is perfectly free from all mineral poisons, which cannot be had of any other Sarsaparilla compounds.

Sold by all the Druggists in California and Oregon.

READY-MADE CLOTHING
General Harrison Block, 99 Battery St.,
SAN FRANCISCO.

THE ELECTRO-CHEMICAL BATHS
OF DR. BOURNE,

Southeast Corner of Sansome and Commercial Streets, opposite the St. Nicholas Hotel, San Francisco.

Are affecting the most extraordinary CURES of Fever and Ague, Intermittent and other Fevers, Jaundice, Disease of the Liver, Kidneys, the Genital and Urinary Organs, all Sexual Disorders, Paralysis, Neuralgi, including Tic Doloreux Stiff Joints, and are also employed with astonishing success in

DISEASES OF THE EYE.

Also, all indolent Ulcers, Tumors, Swellings, Abcesses, Cancer of the Womb, all other affectections of the Womb, and Cancerous affections generally, and Scrofula. These Baths seem to be Nature's own chosen medium for affecting cures where all other means would fail without them; and prove beyond the possibility of a doubt, to all who take them, the iniquity of medical practice which poisons the system by administering to it calomel, arsenic, lead, zinc, iron, antimony, quinine, iodide of potassa, and a whole host of deadly drugs, which remain in the system, and are EXTRACTED BY THESE BATHS.

During fifteen years I have never given even a solitary dose of oil or salts, much less any POISONOUS DRUGS or herbs, and have never seen a case in which they were requisite in water treatment was employed. When will the people cease to be such simpletons as to hire men to POISON and BLEED them, while they also retain on their statute books laws against poisoning, maiming, and bleeding CATTLE? Are the members of the human family less worthy of protection than animals? I assert, in the face of the State and the world at large, that there never was, or is now, and never will be, a case in which calomel, crude mercury, quinine, arsenic, lead, zinc, antimony, iodine, or any other POISON, should have been, or should be, administered to the human system, or in which bleeding cupping, or leeching are required; and further, that hundreds of thousands fill premature graves through an ill-timed or overdose of salts or oil. Let the people ponder on these things, and if the poor and deluded victims of medical rascality desire health, I pledge the honor of one man at least that I will so empty NATURE'S AGENCIES of good food, air, pure water, exercise clothing, the Electro-Chemical Baths, and the sleeping and waking hours, that without a particle of NASTY and POISONOUS medicine, I will so arouse the powers of their systems that if there be any strength left they shall speedily get perfectly well in body, with minds so expanded to the perception of natural philosophy, as thereafter to cause them to set their faces against all professional rogues or fools, and awake them to a knowledge of the evils of intrusting their own vital interest to the Keeping of others whose interest must ever be antagonistic to their own.

Address, by letter or personally, Dr. BOURNE, Water Cure Physician, Sansome street, opposite St. Nicholas Hotel San Francisco, importer into this State of the FIRST and ONLY apparatus for giving these delightful and beneficial Electro-Chemical Baths, and whose experience in their use warrants him in speaking of them in the terms he employs They require great caution in administering them, and Dr. Bourne never intrusts that duty to others, thus avoiding all danger.

So many lying and forged certificates, and PRETENDED editorial recommendations are published, that those truthful statements of facts which Dr. Bourne could offer are withheld, rather than any should suppose they were merely "got up."

Consultations without charge, and charges very moderate for the benefits conferred.

QUICK CURE—SURE CURABLE (if curable)—is the motto of Dr. BOURNE.

Valuable Family Medicines.

THE CELEBRATED
GERMAN TONIC AND AROMATIC BITTERS.

☞AN INFALLIBLE REMEDY FOR JAUNDICE, INDIGESTION, DYSPEPSIA, IMPURITIES OF THE BLOOD, &c., &c.,

and an Elegant, Salubrious and Wonderful Restorative in all DISEASES OF THE STOMACH and DIGESTIVE ORGANS.

Virtues of the German Bitters.

In all diseases of the Stomach and Digestive Organs, the German Tonic and Aromatic Bitters surpass any medicine that has ever been devised. By a peculiar process of German chemistry, they possess the power of warming and invigorating the functions of the Stomach, while they diminish the feverish sensibility of the nerves and fibre.

They fortify and strengthen a weak stomach, and quickly dissipate all unpleasant pains and symptoms. They calm spasmodic action; restore the lost appetite; promote digestion; and, in a word, remove, with astonishing power, all the disorders occasioned by weakness and debility, provided the patient be not afflicted with indissoluble organic obstructions.

These Bitters are highly esteemed in the West Indies and southern part of the United States, for nourishing and invigorating the nervous system, and acting as a general restorative on debilitated constitutions, arising from bilious complaints contracted in warm climates.

They are pre-eminently efficacious in all inward wastings, loss of appetite, indigestion, depression of spirits, trembling or shaking of the hands or limbs, and all consumptive habits. They purify the blood, ease the most unpleasant sensations in the tomach, and promote general warmth and perspiration. They are delightfully aromatic to the taste and smell; agreeably stimulating and strengent in their action on the fibres of the stomach, giving that proper tension and activity to these delicate organs which good digestion requires. SEA BATHS! SEA BATHS!
Russian Steam Baths and Mineral Baths,
ON MEIGGS' WHARF.

THE FIRST AND ONLY COLD AND WARM SALT WATER BATHS, on the Pacific Coast, are now opened to the public in the beautiful large building on Meiggs' Wharf, North Beach. The construction of the natural Sea Water Baths surpasses every establishment of this kind in the world, not only the fullest security, but excludes the disagreeable draughts of the winds, and leaves full action of the waves, which is the principal necessity of sea bathing; thus rendering the privilege of the ocean, not only to the strong, but also to the feeble. The Warm Sea Baths are constructed in the finest possible style, and every Bath furnished with a strong douche, so desirable to produce a reaction of the skin. Both Baths are highly recommended to invalids suffering with colds, rheumatism, chronic diseases and those calamities which a change of climate inflicts upon the human system. **The Russian Steam Bath**, long renowned in the world as the only sure specific against colds is put up with the greatest convenience and the newest improvements, and this with the strong power-douche of Sea Water, renders it preferable to every other construction in this branch. Using Fresh Water for douche often increases the cold, and adds new pains to those felt before applying steam.

Ladies and Gentlemen patronizing us will find neatly furnished parlors, where every attention will be paid; and to bathers the utmost care will be rendered by polite female and male attendants. Omnibuses running from Rincon Point to our establishment will offer every facility and convenience of arrival, and the picturesque situation will render the trip the more pleasant. Invalids from abroad calling upon us, will have the best opportunity of taking a complete Bath-cure; a series of splendidly furnished rooms, commanding a fine view, are kept solely for our patrons. Skillful Physicians and faithful servants will attend those who seek relief in our establishment. To respond to every call we furnish Sulphur and other Mineral Baths for a speedy and complete cure.

To keep pace with the times, and to deserve attention and the patronage of the public, we charge the lowest possible prices.

The great utility of this enterprise as well as the advantages offered by the proprietors, will convince every body that it should be sustained for the good of mankind. Therefore, Ladies and Gentlemen of San Francisco, and of the State of California, give us your favor and patronize the SEA BATHS of DR. BRUNS & CO.,
